Who Must Use Form 120S

Corporations taxed as S corporations under Subchapter S of the Internal Revenue Code must file Form 120S.

Taxable Year Covered by Return

The S corporation must have the same taxable year for Arizona purposes as it has for federal purposes. The S corporation must file the return on a calendar year basis (for 1996) or on a fiscal year basis (for years ending in 1997). Indicate the period covered by the taxable year on page 1 of the return and whether the taxable year is a calendar year or a fiscal year.

Filing Original Returns

Returns are due by the 15th day of the third month following the close of the taxable year. If the taxpayer has a valid federal or Arizona extension, file the return by the extended due date. Attach a copy of the federal or Arizona extension to the front of the Arizona return. Send the return to the Arizona Department of Revenue, PO Box 29079, Phoenix AZ 85038-9079. One or more of the following officers (president, treasurer, or any other principal officer) must sign the return. Attach a copy of the completed federal Form 1120S to the Arizona return.

The department normally determines the timeliness of a return by the postmark or other official mark of the U.S. Post

Office stamped on the cover in which the return is mailed. Refer to Arizona General Tax Ruling GTR 93-1 for further information. Call one of the Taxpayer Information and Assistance help numbers listed above to obtain a copy of the tax ruling.

Filing Amended Returns

Any taxpayer who files an amended return with the Internal Revenue Service must file an Arizona amended return. The taxpayer must report changes or corrections of the taxpayer's income by the Internal Revenue Service. The taxpayer must also report changes in the taxpayer's income as the result of renegotiations of a contract or subcontract with the United States to the department. The taxpayer must report the change or correction or file an amended return to the department within 90 days after the final determination of the change or correction.

File amended returns within four years after the filing of the original return. Attach a statement to the amended return that explains why the taxpayer amended its Arizona return. If the taxpayer amended its federal return, attach a copy of the amended federal return with all applicable schedules to the amended Arizona return.

NOTE: *File amended returns for prior taxable years on the Arizona Forms 120S for those taxable years. Use the 1996 Form 120S to amend only the 1996 taxable year.*

Payment of Tax

If the S corporation itself is subject to tax, the entire amount of tax is due by the original due date of the return.

The S corporation is subject to tax only if it has income subject to tax at the corporate level on the federal Form 1120S. The income subject to tax at the corporate level is excess net passive income, capital gains income, or certain built-in gains income.

Estimated Tax Payments

S corporations that expect an Arizona income tax liability for the taxable year

of \$1,000 or more must make Arizona estimated tax payments. Use Form 120ES, *Corporation Estimated Tax Payment*.

For exceptions to the estimated tax requirements, see the instructions for Form 220, *Underpayment of Estimated Tax by Corporations*.

NOTE: *The Arizona estimated tax payment calculation should include any tax from the recapture of the environmental technology facility and recycling equipment credits. Include the correctional industries recapture tax, if applicable, in the Arizona estimated tax payment calculation. These requirements apply whether or not the S corporation itself is subject to tax at the corporate level.*

An S corporation that fails to make the required estimated tax payments is subject to a penalty plus interest on any estimated tax payment which is late or underpaid.

The Arizona required annual payment of corporate estimated tax for an S corporation is the smaller of:

1. Ninety percent of the taxpayer's Arizona tax liability for the current taxable year; or
2. An amount equal to the sum of:
 - a. ninety percent of the portion of the current taxable year's Arizona tax liability that is attributable to built-in gains income or certain capital gains income.
 - b. one hundred percent of the portion of the prior taxable year's Arizona tax liability that is attributable to excess net passive income.

NOTE: *In order for the taxpayer to base its estimated tax payments on the tax liability described in (2) above, the taxpayer's return filed for the prior taxable year must have been for a period of twelve months.*

Taxpayers required to make Arizona corporate estimated tax payments should use the 1997 Arizona Form 120ES Worksheet to compute the required installments. Refer to the 1997 Arizona Form 120ES Worksheet and its

instructions before completing the 1997 Arizona Form 120ES.

Effective for taxable years beginning on or after January 1, 1997, taxpayers whose Arizona corporate income tax liability for the preceding taxable year was \$20,000 or more must make Arizona corporate estimated tax payments via electronic funds transfer. If the taxpayer makes its estimated tax payments by electronic funds transfer (EFT), the taxpayer should not submit the Arizona Form 120ES to the department.

Taxpayers required to make estimated tax payments via electronic funds transfer must complete the department's electronic funds transfer authorization agreement at least 30 days prior to initiation of the first applicable transaction. Taxpayers whose Arizona corporate income tax liability for the preceding taxable year was less than \$20,000 may elect voluntary participation in the electronic funds transfer program. Voluntary participants in the program must complete the department's electronic funds transfer authorization agreement at least 30 days prior to the first applicable transaction. Obtain additional information concerning the Arizona electronic funds transfer program by contacting the EFT Helpline at 1-800-572-7037 (542-2040 in Phoenix). The FAX line is (602) 542-4667.

Extension of Time To File a Return

The S corporation can apply for an Arizona extension by filing a completed Arizona Form 120EXT by the original due date of the return. The S corporation can use a valid federal extension rather than applying for an Arizona extension. The Form 120EXT must be used to transmit any extension payments, whether the S corporation uses a valid federal extension or requests an Arizona extension. Attach a copy of the federal or Arizona extension to the front of the Arizona return.

The S corporation must pay 90 percent of the tax liability by the original due date of the return. The S corporation's tax liability may be the \$50 minimum tax or may include the correctional industries recapture tax. The tax liability may also include tax from the recapture of the

environmental technology facility and recycling equipment credits. The department imposes the extension underpayment penalty on any late or underpaid extension payments.

The department grants an Arizona extension for a period of six months. Arizona law provides that six months is the maximum extension of time to file that the department may grant. However, Arizona law provides that the department may accept the federal extension for the same period as covered by the federal extension.

Penalties and Interest

A. Late Filing Penalty. A return filed after the original due date is subject to the late filing penalty unless the S corporation has a valid federal or Arizona extension. The S corporation must attach a copy of the valid federal or Arizona extension to the return. A return filed after its extended due date is also subject to the late filing penalty. The late filing penalty is 5 percent of the tax found to be remaining due. The penalty period is each month or fraction of a month between the due date of the return and the date the S corporation filed the return. The maximum penalty is 25 percent of the tax found to be remaining due.

B. Extension Underpayment Penalty. A return filed without an attached valid federal or Arizona extension is subject to the extension underpayment penalty. The S corporation must pay 90 percent of the tax liability disclosed by its return on or before the original due date of the return. The department imposes the extension underpayment penalty on any late or underpaid extension payments. The extension underpayment penalty is one-half of one percent (.005) of the tax not paid. The penalty period is each 30-day period or fraction thereof between the original due date of the return and the date the S corporation paid the tax. The maximum penalty is 25 percent of the tax not paid.

C. Late Payment Penalty. The department imposes the late payment penalty on tax not paid by the date prescribed for its payment. The late payment penalty is 10 percent of the tax not paid within the time prescribed for its payment.

NOTE: If two or more of the penalties described in A, B, or C apply, the maximum combined penalty is 25 percent.

D. Interest. The department assesses interest on any portion of the tax, whether determined by the department or the taxpayer, not paid by the date prescribed for its payment. The department applies the rate of interest, compounded annually, in the same manner and at the same time as prescribed by Internal Revenue Code § 6621. On January 1 of each year, the department adds any interest outstanding as of that date to the principal amount of the tax. It is then a part of the principal amount of the tax and accrues interest until paid.

E. Underpayment of Estimated Tax Penalty. The department imposes the underpayment of estimated tax penalty on any late payment or underpayment of a required installment of estimated tax. Refer to Arizona Form 220 for further details. The penalty imposed is the penalty prescribed by ARS § 43-582 for the applicable period.

Furnishing Data

S corporations must attach a copy of the federal return (along with all schedules and attachments) to the Arizona return.

Do not send in a blank Arizona return with a copy of the federal return; the return will not process accurately. The taxpayer must furnish complete data. Answer all questions on the return. Complete all applicable schedules. Also attach all appropriate supplementary schedules.

Records

Every S corporation should maintain books and records substantiating information reported on the return and keep these documents for inspection. Arizona General Tax Ruling GTR 96-1 discusses the general requirements for the maintenance and retention of books, records and other sources of information received, created, maintained or generated through various computer, electronic and imaging processes and systems. Call one of the Taxpayer Information and Assistance help numbers listed on page 1 of these

instructions to obtain a copy of the tax ruling.

IRC § 7519 Required Payments

Taxpayers cannot deduct the federal required payments on their Arizona tax returns as an ordinary and necessary business expense or otherwise.

Rounding Dollar Amounts

Taxpayers must round amounts to the nearest whole dollar. If 50 cents or more, round up to the next dollar. If less than 50 cents, round down.

Line-by-Line Instructions

Type or print the required information in the name, address, and information boxes on the top of page 1. Indicate the period covered by the taxable year on page 1 of the return and whether the taxable year is a calendar year or a fiscal year. Indicate whether this return is an original or an amended return.

Enter the S corporation's federal employer identification number, which is the taxpayer identification number (TIN). Enter the Arizona withholding tax number and Arizona transaction privilege tax number for the S corporation.

All returns, statements, and other documents filed with the Department of Revenue require a taxpayer identification number (TIN). The TIN is either a correct social security number or, for a business, the federal employer identification number. Paid tax preparers must also include their TIN on forms where requested. Taxpayers and paid preparers who fail to include the proper TIN may be subject to a penalty. Please check the return to be sure that all required identification numbers are accurate and written clearly. Missing, incorrect, or unclear identification numbers may cause delays in processing the returns.

The S corporation must allocate and apportion its net income according to the Uniform Division of Income for Tax Purposes Act (UDITPA), ARS §§ 43-1131 through 43-1150. An S corporation that has income from business activity taxable in more than one state is a "multistate S corporation." An S corporation that has income from business activity that is taxable entirely within Arizona is a "wholly Arizona S corporation."

Wholly Arizona S corporations - do not complete lines 5 through 10. Go to line 11. Line 5 - Nonapportionable or Allocable Income

The taxpayer must apportion all business income by the use of the apportionment formula. Nonbusiness income is nonapportionable and specifically allocable to a particular state.

The taxpayer should attach a schedule that details the amount of nonapportionable income subtracted on page 1, line 5.

"Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business. Business income includes

income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations. (ARS § 43-1131) "Nonbusiness income" means all income other than business income. (ARS § 43-1131)

Enter the total amount of all income (or loss) which is nonapportionable or specifically allocable to Arizona. Refer to ARS §§ 43-1134 through 43-1138 for the methods of allocating certain types of nonbusiness income.

Line 6 - Apportionable Income

The amount of the tax is the greater of \$50 or 9 percent of the net income subject to Arizona corporate income tax (line 13). The S corporation is subject to the \$50 minimum tax if it has income subject to tax at the federal level, although line 13 may be zero or a negative amount.

Schedule C - Apportionment Formula (Multistate S Corporations Only)

ARS §§ 43-1131 through 43-1150 govern the apportionment of income. An S corporation that engages in activities both within and without Arizona must apportion its business income. The S corporation must base the apportionment

on property, payroll, and sales in Arizona as compared with everywhere. "Everywhere" means the property, payroll, and sales factors related to the whole unitary business.

When the taxpayer uses the apportionment method, complete page 1, lines 5 through 10.

ARS § 43-1148 provides administrative relief if the allocation and apportionment provisions of UDITPA do not fairly represent the extent of the taxpayer's business activity in this state. The taxpayer may petition for or the department may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

1. Separate accounting.
2. The exclusion of any one or more of the factors.
3. The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state.
4. The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

This section permits a departure from the allocation and apportionment provisions only in limited and specific cases. ARS § 43-1148 may be invoked only in specific cases where unusual fact situations produce incongruous results under the apportionment and allocation provisions.

Taxpayers seeking such relief should submit a letter to the Corporate Income Tax Audit Section 60 days prior to the filing of the return setting forth the relief that is requested and the justification for the relief.

The department normally makes such determinations only upon audit of the taxpayer. Such a detailed examination of the specific facts and circumstances reveals whether such unusual fact situations and incongruous results exist.

NOTE: ARS § 43-1139 (Allocation of business income) provides that the apportionment ratio is a fraction. The numerator of the fraction is the property factor plus the payroll factor plus two times the sales factor. The denominator of the fraction is four.

Line C1 - Property Factor

The value of tangible personal property and real property owned by the taxpayer is its original cost. The taxpayer normally determines the average value of its owned property by averaging the values at the beginning and ending of the tax period.

The value of tangible personal property and real property rented by the taxpayer is eight times its net annual rental rate. The net annual rental rate is the annual rental rate paid by the taxpayer for rented property less the aggregate annual subrental rates paid by subtenants of the taxpayer. The taxpayer automatically achieves averaging for rented property

by the method of determining the net annual rental rate of such property.

Report real property situated and tangible personal property permanently located in Arizona, if connected with the business, as property within Arizona. Allocate the value of mobile property to Arizona based on the total time that the property was within Arizona.

Line C2 - Payroll Factor

Report salaries, wages, or other compensation of officers, employees, etc., as within Arizona, if performance of the services occurs here. This rule applies regardless of where payment is made or control exercised. This rule also applies regardless of whether the performance of the services is partly or wholly in connection with the apportionable business carried on outside the state or in interstate or foreign commerce. Allocate the compensation of officers and employees who perform services partly within and partly without Arizona to this state when:

1. The services performed outside of Arizona are incidental to the employee's service within Arizona; or
2. The employee's base of operation is in Arizona; or
3. The employee has no base of operation in any state, but the direction or control of the employee is from Arizona; or
4. The employee has no base of operation in any state and there is no direction or control from a state in which the employee performs some part of his services, but the employee's residence is in Arizona.

Line C3 - Sales Factor

The term "sales" includes all gross receipts from transactions and activities in the course of the regular trade or business that produce income.

In general, determine sales within Arizona on a destination sales basis.

U.S. government sales are Arizona sales if shipment of the property is from an office, store, warehouse, factory, or other storage place in Arizona. If the taxpayer is not taxable in the state of the purchaser, the Arizona sales include the property shipped from an office, store,

warehouse, factory, or other storage place in Arizona.

NOTE: Multiply the amount entered on line C3(e), column (a) of the Schedule C (the total Arizona sales) by 2 (double weighted sales factor) on line C3(f), column (a). Enter the amount on line C3(g), column (a). Do not double the amount on line C3(g), column (b) of the Schedule C (the everywhere sales of the taxpayer). Example: The S corporation has total Arizona sales of \$100,000 and total everywhere sales of \$1,000,000. On line C3(g), column (a), enter \$200,000 of Arizona sales. On line C3(g), column (b), enter \$1,000,000 of everywhere sales for the S corporation.

The sales factor ratio on line C3(g), column (c) may, in certain circumstances, exceed 100 percent. However, since the total ratio (line C4, column (c)) is divided by four, the average ratio (line C5, column (c)) will not exceed 100 percent.

Line C5 - Average Ratio

Divide the total ratio, line C4, column (c) by four. Enter the average ratio here and on page 1, line 7. Express the ratio as a decimal carried out to six places.

NOTE: Do not exclude a factor from the total ratio (line C4, column (c)) if the numerator of a factor is zero and the denominator of a factor is greater than zero. However, the taxpayer must exclude a factor if both the numerator and the denominator of a factor are zero. If the property or payroll factor is excluded, determine the average ratio (line C5, column (c)) by dividing the total ratio by three. If the sales factor is excluded, determine the average ratio by dividing the total ratio by two.

Information on Shareholders

Complete all information requested on each shareholder. List each shareholder's name and address, social security number, trust's federal employer identification number, percentage of ownership, distributive income or loss. Check the box if the shareholder is a nonresident of Arizona. Attach additional sheets if needed.

Certification

One or more of the following officers (president, treasurer, or any other principal officer) must sign the return. Complete the signature of the paid preparer, TIN, and date lines on page 3.

Resident Shareholders

Resident shareholders are taxable on their entire distributive share of income from the S corporation. The distributive share of S corporation income reported on the federal return will flow through to Arizona Form 140 or Arizona Form 141.

Nonresident Shareholders

Nonresident shareholders of S corporations operating in Arizona are subject to Arizona income tax on their distributive share of the income (loss) earned by the S corporation in Arizona. See Schedule K-1(NR). Nonresident shareholders must file Arizona Form 140NR, *Nonresident Personal Tax Return*, to report this income (loss). Estates and trusts must file Arizona Form 141, *Fiduciary Income Tax Return*.

Schedule K-1(NR) - Instructions for the S Corporation

Use this schedule for all nonresident individual shareholders and nonresident fiduciary shareholders.

Any S corporation that has income from business activity that is taxable both within and without Arizona must allocate and apportion its net income. The S corporation must allocate and apportion its income according to the Uniform Division of Income for Tax Purposes Act (UDITPA), ARS §§ 43-1131 through 43-1150. An S corporation that has income from business activity taxable in more than one state is a "multistate S corporation." An S corporation that has income from business activity that is taxable entirely within Arizona is a "wholly Arizona S corporation."

Column 1 - Distributive Share Amount

Wholly Arizona S corporations - In column 1, enter the distributive share

amount for each line item from the federal Form 1120S, Schedule K-1.

Multistate S corporations - Apportion all business income of an S corporation by use of the apportionment formula. Nonbusiness income of a multistate S corporation is nonapportionable and specifically allocable to a particular state.

In column 1, enter the nonresident shareholder's distributive share of the multistate S corporation's income (or loss) that is subject to apportionment. The multistate S corporation must compute the nonresident shareholder's distributive share of the S corporation's income that is subject to apportionment. Make this computation by subtracting the shareholder's distributive share of the multistate S corporation's nonbusiness income from the shareholder's total distributive share amount of the S corporation's income. To compute the amount of such income that is subject to apportionment, the multistate S corporation must attach a schedule that details (for each line item):

1. The shareholder's distributive share amount from the federal Form 1120S, Schedule K-1.
2. The shareholder's distributive share amount of the S corporation's nonapportionable or allocable income.
3. The shareholder's distributive share of the S corporation's income that is subject to apportionment. Refer to ARS §§ 43-1134 through 43-1138 for the methods of allocating certain types of nonbusiness income.

Column 2 - Arizona Apportionment Ratio

Wholly Arizona S corporations - Enter 100 percent.

Multistate S corporations - Enter the average ratio amount from Arizona Form 120S, Schedule C, line C5, column (c), on Arizona Form 120S Schedule K-1(NR), column 2.

Column 3 - Arizona Source Income

Wholly Arizona S corporations - Multiply column 1 by column 2 and enter the result in column 3.

Multistate S corporations - Attach a schedule that details (for each line item) the following computation:

1. The shareholder's distributive share of the S corporation's income subject to apportionment multiplied by the average ratio in column 2.
2. The shareholder's distributive share of the S corporation's income (or loss) which is specifically allocable to Arizona.
3. The total of the amounts computed in steps 1 and 2 that is to be entered in column 3.

NOTE: ARS §§ 43-1134 through 43-1138 specify the methods for allocating certain types of income to Arizona. Do not include the amount of any nonbusiness income which is allocable to another state in the total to be entered in column 3.

All S corporations - Column 3 is the shareholder's Arizona source income from the S corporation. Shareholders should refer to the Arizona Form 120S Schedule K-1(NR) instructions for information on completing their Arizona tax returns.

Information on the Filing of Composite Returns on Arizona Form 140NR

Arizona law requires an individual resident or nonresident to file his or her own income tax return. The Arizona Department of Revenue will accept a composite return on Arizona Form 140NR for qualifying nonresident individual shareholders of an S corporation. *However, a composite return cannot be filed with fewer than ten participating members.* Refer to Arizona Individual Income Tax Ruling ITR 93-14 for information regarding the requirements for filing a composite return on Arizona Form 140NR. Call one of the Taxpayer Information and Assistance help numbers listed on page 1 of these instructions to obtain a copy of the tax ruling.
